Subject: RE: Addenda for Town of Shelburne Phone System RFP

Hi Andy,

While the town does have several Fairpoint lines that are separate from the PRI, none of these are routed into the existing Nortel phone system. There are several analog fax lines in the Police, Town Office and School District offices. Traffic on these fax lines goes through the PRI.

To the best of our knowledge, the vast majority of existing Phone jacks also have a Cat 5 data outlet. (There may be 1 or 2 that don't.)

Best,
Ann

Ann

A few questions:

Can you identify ALL lines going through the PBX now?

- Elevator(s)
- Analog phones
- Cordless phones
- Etc

Can you identify how many Cat3 phone cable locations have Cat5/C 5e/ Cat6 jacks on them now?

Thanks
Andy

Subject: Addenda for Town of Shelburne Phone System RFP

Dear Vendors,

Thank you for visiting us in Shelburne last Wednesday, January 18. Attached please find an attendance list from the meeting and addenda for the RFP as a result of the meeting. This information will also be posted on the Town's website shortly at: <http://vt-shelburne.civicplus.com/398/3118/Bids-RFQs-RFPs>

Please note that the last day for questions is close of business on February 1, 2017. All questions must come to me electronically and answers will be posted on the Town's website.

Thanks again,
Ann
