

## **Shelburne Working Group on Human-Wildlife Interactions Meeting Minutes – November 30, 2020**

**Present:** Don Rendall, Jon Cocina, Jim White

**Facilitator:** Don Rendall

**Notes:** Don Rendall

1. Motion to approve agenda and minutes approved.
2. Public comment: no public comments. Lena introduced herself.
3. Discussion of policy draft

Don presented input from the SNRCC meeting. There was appreciation regarding many of the informational links and the content in general. A list of specific suggested changes was briefly discussed and recognized as relevant to the detail level examination but less so relative to the big picture. Don said the major guidance was that the document is still too large for the Select Board to deal with. He suggested a new organization of the material and emphasized the actions needed for implementation. This engendered the bulk of remaining discussion.

A major item arose regarding implementation and as the present draft had indicated possible changes in the role of the Animal Control Officer, it was felt that this individual ought to be brought into the process before the subcommittee proceeds with final revisions. Don will connect with the ACO and invite to a meeting on Dec 10 assuming the Zoom time was still available.
